PRESIDENT

The 2009 Annual Report signifies the conclusion of my second year as President of the Association having been elected at the 2008 AGM.

The major focus for the year saw OANSW stage the 2009 World Masters Orienteering Championships (as part of the World Masters Games) in October with two new areas being used (Homebush – Olympic Park and Clandulla State Forest) and the updating of the Macquarie University map to ISOM Sprint standards.

The event attracted over 1200 competitors and is understood to be the largest event to have been held in Australia. To cope with the requirements of running the Championships many volunteers were needed, and to all NSW orienteers and their families who gave of their time to assist in the organisation and running of the various competitions, on behalf of OANSW I would like to offer a sincere thank you to you all. Without you the events could not have taken place.

No event of this size could have been undertaken with a significant amount of planning. Event Director Nick Dent, who spent many hours liaising with the Sydney World Masters Games Organising Committee (SWMGOC), coordinating the planning and organisational aspects to ensure another world-class event was staged in NSW, and his team must also be thanked for their time and efforts in achieving a successful event.

One of the benefits to OANSW of staging WMOC has been the upgrading the Association's SI timing system. A number of clubs have subsequently benefitted from the equipment that was purchased for the WMOC event, and the Association has further benefited from the staging of WMOC with the addition of the new maps mentioned above.

In addition to Nick's significant contribution with WMOC, he also continued as OANSW's Planning Director. I would also like to thank Nick and the other Board members who once again freely gave of their time throughout the year in helping manage Orienteering in NSW. I look forward to working with the Board in 2010.

2009 saw OANSW successfully conclude the Dept. of Health & Aged Orienteering Development program in schools, and also commence a program of introducing orienteering into the Active After Schools Community program with funding from Australian Sports Commission. Barbara and Lyn were assisted with the AASC program by a number of orienteers from various clubs, and the Board thanks all who assisted with these programs, and especially thanks Lyn and Barbara for successfully managing the programs. OANSW'S appreciation is also extended to Russell and Karen Blatchford who again managed the NSW Junior Squad in 2009. Additionally I would also like to thank the Association delegates and those members who have supported OANSW throughout the year.

It is pleasing to also note that the membership was up on the 2008 figure by approx. 4%, and that the Sydney Summer Series (SSS) competitor numbers are also up on 2008 with an average entry level of approx. 190 by the end of the year. The total number of starters in the SSS was also up from 2008. The support of Ross Barr in coordinating the SSS event calendar is greatly appreciated and all club members involved in the organising of SSS events are also thanked.

Financially the Association continues to progress well and the Board has been able to manage the budget as required by the Association. While expenditure increased beyond expected levels, income also increased such that the result was an increased operating surplus for the year.

As always the Board welcomes input from the membership and with your help looks forward to a successful 2010.

Paul Prudhoe

COACHING

2009 has been another positive year for coaching in NSW.

The NSW Junior Squad conducted 3 training camps throughout the year, one based in the Hunter Valley, one in Canberra and the annual Christmas Camp at Belanglo. At these camps our leading and promising junior orienteers experienced a wide range of physical and technical training activities under the guidance of

Squad Managers Russell and Karen Blatchford and myself as Squad Coach.

The training camp in Canberra was held in conjunction with the ACT Junior Squad and was a great success with everyone benefitting from the larger number of participants, organisational and coaching resources available. More combined camps are likely to be held in the future.

The Junior Squad received a further boost during the year with the acquisition of a Sportident training kit. This kit was used to great effect during the Christmas training camp in December. Thanks to the World Masters organisers for providing this valuable addition to the Squad's coaching and training resources.

As part of the development work being conducted by Barbara Hill and Lyn Malmgron, we have experienced an increasing number of inquiries about Level 0 coaching courses, primarily from schools. In response to this Barbara has developed information and course content material for OANSW in support of these important development and coaching activities. Thanks to Barbara for her efforts in supporting our coaching resources.

A level 1 coaching course is proposed for 2010. It was originally intended that this be held in the latter part of 2009 but appropriate resources could not be obtained due to World Masters commitments. The goal of this course will be to equip orienteers with the skills to coach others in the club environment.

Mark Darvodelsky

COMMUNICATIONS

2009 saw a continuation of the high profile of OANSW through the highly successful organisation and running of the World Masters Orienteering Championships, in association with the Sydney World Masters Games. Once again, OANSW was able to show the world what we can do in terms of outstanding event management, superb competition terrain and venues, and high quality maps.

Website developments

In 2009 there have been small but progressive changes to the OANSW website. Improvements have included:

- . Rationalisation of the Homepage, with a reduction in clutter and a more user-friendly look.
- . The online Course Setter of the Year survey, which attracted a lot of responses early in the year but interest tailed off towards the end of the season. More effort is needed to promote the site to ensure all events are equally evaluated by competitors.
- . A calendar of events on the homepage. Currently only contains State League events but will be gradually expanded to include other events.
- . Implementation of the eNewsletter, including the colour version in December.
- . Implementation of RouteGadget, mainly through the excellent work of the Garingal club.
- . OA Results service was utilised for all State League and the Sydney Series events in 2009. The Board has indicated that it wants to expand this to other events in 2010 and beyond and this was supported by the Association meeting in November. A key to this will be the increasing use of SI for timekeeping at events. The Sydney Sprint Series has adopted SI timing this recent summer.

The gradual revamp of the whole site is still in progress. To assist with this, OANSW has joined with other Australian Orienteering bodies in requesting a better "back-end" product from SocialFX, the web service provider, including a new editor tool. This will hopefully also include a test environment where new pages can be loaded and viewed by developers prior to publication.

eNewsletter

As mentioned above, we now have an electronic version of the Newsletter. This is continuing to evolve with the first colour edition in December. As well as this, clubs are now providing links to event entry forms and information. Some have gone further and are offering some form of electronic entry and payment.

Online entry

This is probably the next big-ticket item for the Association and it is something I would like to see introduced within the next 12-18 months. OACT the VOA have both demonstrated that the technology works, using different systems for current and recent major events. For the benefit of all competitors and organisers, I believe that OANSW needs to work with the other states to introduce a common system rather than everyone develop something different.

Alex Davey

PLANNING

During 2009 my main focus was the World Master Orienteering Championships 2009. Thanks to the work of the board in 2007 we now have a very workable document "OANSW Operational Plan 2008-2010". This document sets the direction for a three year period in areas covering all board portfolios. This will need to be evaluated and modified during 2010 to establish the Operational Plan for 2011-2013. Being of a practical nature my approach has been to look at what is working well and to leave it alone and to look at what is not working well and try to develop a plan for improving it.

The following areas of action have been further developed during 2009.

- Detailed planning to enable OANSW to organise another world class event in October 2009- World Master Orienteering Championship in conjunction with the World Masters games. This event was an unqualified success and for this the orienteering community of NSW deserves both congratulations and a big thank you.
- A new approach to the planning of the annual event calendar. This has resulted in the continuation of the Sydney Series events in 2010 and a reduction in the number of State League events. A survey that was distributed to all clubs concerning the events program to be developed in 2010 has been utilised to determine the event program for 2010. This new process has been approved by the board.
- This event program review will include the Schools Series with the plan to further develop this series as a viable pathway for school students to experience orienteering.
- The purchase of new updated SportIdent equipment thanks to funding from the Wold Masters Games.
- Maintain an Annual Presentation Dinner and continue to raise the significance of this event to become a celebration of the successes of all the orienteering community in NSW.

NOL weekend of events in May which will also double as the WOC 2010 final trial. This will utilise existing quality maps we have and also enable NSW to be an effective part of this elite program of events.

Further areas for action in 2010 which I feel are crucial to the survival of our sport are

- Use of **accumulated funds** which are currently earning interest in various accounts.
- Appropriate funding of marketing and promotion of orienteering in NSW to tie in with Orienteering Australia's new approach. Increase the number of **qualified Coaches**.
- Respond effectively to the increasing numbers of disciplines within orienteering.
- Actively encourage all orienteers to look
