

# DuO Adventure Series 2013/14

## COURSES FOR 2013/14

Based on your feedback both by email and discussions after the event we have made a few changes to the courses for the coming series. In addition the courses will follow the orienteering levels of difficulty that will allow the course setters to standardise their approach to the level of difficulty found over the courses. It was very obvious after the events that many competitors enjoyed the more challenging navigation and course difficulty/length. The new courses should allow the DuO series to maintain challenging courses for the majority of competitors yet allow for novices and families to participate in the events.

<b>EASY (Novice/Children)</b>	3 to 5 km on bike and 1.5 to 2km on foot	30min to 1 hour
<b>HARD 1 (Long)</b>	15 to 25km on bike and 5 to 10km on foot	2 to 4 hours
<b>HARD 2 (Medium)</b>	10 to 15km on bike and 4 to 7km on foot	1.5 to 3 hours
<b>HARD 3 (Short)</b>	8 to 12 km on bike and 3 to 5 km on foot	1 to 2 hours

Hard 1 courses will have challenging navigation over longer distances and difficult terrain.

If you have not competed in a DuO event or you are not competent at navigation a Hard 2 or Hard 3 course is recommended.
